

MEDIA RELEASE

Lumyna Investments and Melqart Asset Management announce partnership

London, UK, [14th October 2026] – Lumyna Investments (“Lumyna”), a leading alternative investments platform and affiliate of Generali Investments, and Melqart Asset Management (“Melqart”) have entered into a partnership to bring Melqart’s multi-strategy event-driven investment approach to institutional investors globally.

Melqart was founded in 2015 by Michel Massoud, who brings 28 years of experience investing through multiple market cycles. Over its 11-year track record, the firm has executed a multi-strategy approach to event-driven investing, identifying idiosyncratic opportunities across mergers and acquisitions, capital structure dislocations, special situations and other catalyst-driven events. The investment process is driven by fundamental, research-led analysis across opportunities predominantly in Europe and North America. Rather than maintaining fixed allocations to individual strategies, Melqart has the flexibility to allocate capital dynamically as the opportunity set evolves, seeking to deploy exposure where the team identifies the most attractive opportunities. This flexible approach is underpinned by disciplined portfolio construction and a robust risk-management framework.

Since 2007, Lumyna has been providing investors with access to leading investment managers through its expertise in structuring, operating and distributing funds across alternative investments. Since inception, Lumyna has continually evolved to meet investors’ needs, expanding to deliver a broad range of diverse strategies across liquid alternatives and private markets while maintaining the same exceptional standards of manager selection and structural rigour.

The partnership brings together Melqart’s multi-strategy event-driven investment expertise with Lumyna’s fund structuring and distribution capabilities.

“Lumyna has built a strong reputation through its longstanding partnerships with high-quality alternative investment managers and its extensive network across the global investor community. This partnership allows us to make our multi-strategy event-driven approach available to a broader base of institutional investors, while preserving the investment discipline and strategy that have defined Melqart since inception. We look forward to building a long-term partnership with the Lumyna team.”

Michel Massoud, Founder and Chief Investment Officer, Melqart Asset Management

“We are excited to be partnering with Melqart, which brings a differentiated, research-driven approach to event-driven investing. The team’s depth of expertise and clear investment philosophy make them a natural fit with Lumyna and our continued focus on giving investors access to distinctive alternative strategies. We look forward to working closely with the Melqart team in the years ahead.”

Philippe Lopategui, Chief Executive Officer, Lumyna Investments

Further announcements regarding the partnership’s investment initiatives are expected following the completion of applicable regulatory processes.
